About Me

I'm Sem, 21 years old, and a passionate software developer with strong expertise in building applications using React. With over 5 years of experience in the IT sector, I am enthusiastic about creating high-quality software solutions that meet user needs.

Education

- 2022 - present  **Grafisch Lyceum Rotterdam**
Software Developer
- 2017 - 2021  **ISW Poeldijk**
VMBO-TL (Completed)

Work experience

-  **Backdesign**
CEO | Nov 2021 - Sep 2025
As CEO of Backdesign, I designed and created custom-made websites for various companies.

-  **Bundles and Batches**
Stage | Sep 2021
For my high school internship, I chose to work at Bundles and Batches. There, I learned a lot about working with React.

-  **Jumbo Koornneef**
Shelf Stocker | 2019 - 2021
At Jumbo Koornneef in Wateringen, I worked as a shelf stocker. This helped me gain experience in communicating with customers.

-  **Pixelnode**
CEO | 2018 - 2020
As CEO of Pixelnode, I mainly offered game servers to clients. For this, I designed and built a complete hosting panel.

Other experience

-  **Trip to Suriname with Grafisch Lyceum Rotterdam**
GLR | Dec 2023
During this trip to Suriname, I learned how to collaborate with international developers and students, as well as how to communicate effectively within a development team.
-  **Hackathon Immersive Techweek Rotterdam**
GLR | Nov 2023
During this hackathon, I worked with four other GLR students on a project assigned by the Immersive Techweek organization. We successfully completed the assignment within three days.
